9. Notification of VCJPA Refund and Allocation to Member Contingency Fund

Mr. Farned provided an update on the yearly VCJPA annual report, noting that a total refund of \$42,570 will be deposited into the District's VCJPA Member Contingency Fund. This action ensures the District maintains its financial stability and reserves for future needs.

President Capoccia requested that the Finance Committee agendize this item for discussion at their next meeting. He suggested that when there is a surplus, a parallel fund be created to achieve a higher rate of return, and when there is a negative drawdown, the existing fund be used. This approach would allow the District to obtain a higher return.

The Board received and filed this report.

10. District Administration

10.1 District Update

Mr. Farned wished the Board a happy holiday season and hoped they had enjoyed the annual breakfast. The Board recognized Trustee Johnson for his service, and Trustee Johnson expressed his gratitude for their kind words.

Mr. Farned reported that the disease season has officially ended, with a significant decrease in the populations of mosquitoes and black flies. He noted that there were 54 positive mosquito pools for West Nile Virus this year, compared to 266 last year. Additionally, he mentioned that Dengue travel cases have increased from 5 to 22 compared to the previous year.

10.2 End of Season - Video Recap

Mr. Farned informed the board that the Communications department, led by Director Anais Medina Diaz, produced an end-of-season recap video featuring district staff and trustees. The board praised the staff for their work in 2024.

San Gabriel Valley Mosquito & Vector Control District Surveillance Department Report Disease Weeks 49 - 52 | December 1 – 28

Surveillance Activities

Routine mosquito surveillance concluded in 2024 during disease week 44 while enhanced mosquito surveillance continued through week 50. The following are concluding visual summaries for 2024.

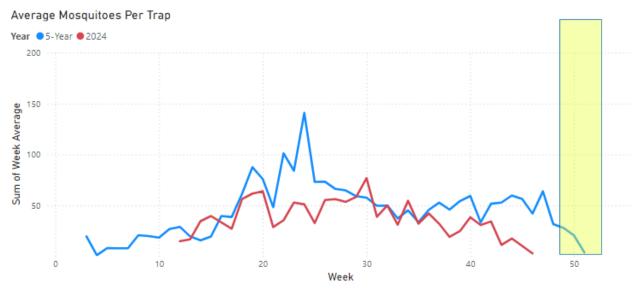

Fig. 1 Average mosquito collections per trap for the current year 2024 (red) compared to a five-year average of mosquito abundance (blue) from 2019 through 2023. Highlighted are weeks 49-52.

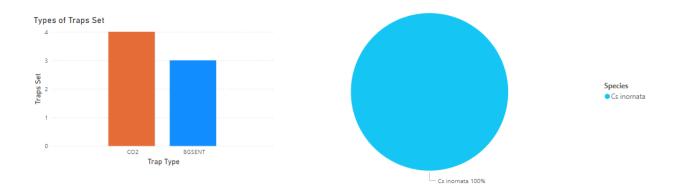

Fig. 2 The bar chart depicts the total number/types of traps set while the pie chart depicts the total percentage of mosquitoes collected for the current reporting period. Species listed on the far right are sorted from high to low as a function of total abundance.

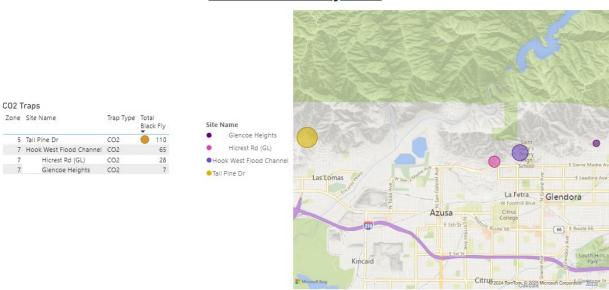

Fig. 3 The chart on the left depicts the average amount of mosquitoes collected per trap by sampling location and city/community. The map displays these trapping location averages while the size of the bubbles on the map reflects the relative abundance of mosquitoes caught at each site.

Black Fly Surveillance

Routine black fly surveillance was conducted during disease week 50. This surveillance was conducted using EVS traps baited with carbon dioxide in the form of dry ice. During this period, black fly abundance was below district action threshold.

Week 50 Black Fly Data

Additional Surveillance Activities

Enhanced surveillance activities are activated when additional mosquito abundance/disease information is required from a specific area. Generally, these activities are activated in response to specific disease/abundance triggers but can be utilized proactively in areas of historic concern.

For disease week 50, one enhanced surveillance activity was activated. This were in response to a travel related dengue case in Covina.

Arbovirus Activity

As of disease week 16, West Valley Mosquito and Vector Control District resumed testing dead bird and mosquito pool samples. As a reminder, mosquitoes are tested in groups, routinely of 20-50 individuals, to test for the presence of virus. These groups of mosquito samples are referred to as a mosquito "pool". *Aedes* spp. can be tested in lower quantities to aid in identifying local virus transmission details. *Culex* mosquito samples and dead bird samples are tested for West Nile virus (WNV), St. Louis Encephalitis (SLE) and Western Equine Encephalitis (WEE) virus. *Aedes* samples are tested for Dengue (DENV), Chikungunya (CHIKV) and Zika virus (ZIKV), summarized to CDZ, unless otherwise noted.

As of week 28, the first WNV positive mosquito pool was collected within District boundaries.

As of week 33, the first WNV positive dead bird was collected within District boundaries.

No testing occurred during this reporting period. The final totals for the 2024 season are as follows:

In 2024, 936 mosquito pools have been tested with 43 positive detections

At this time in 2023, 1231 mosquito pools were tested with 266 positive detections

In 2024, 31 bird samples have been tested with 3 positive detections

• At this time in 2023, 43 bird samples were tested with 16 positive detections

Location: San Diego, CA	
Significant points learned of benefit to the District and its ratepayers:	
The MVCAC Fall Planning Meeting in San Diego was an opportunity to connect with committees involved in the MVCAC organization to review the past year's goals and accomplishments and discuss the upcoming year's needs. As a member for the Public Information Committee, the planning session was an opportunity to discuss the differe resources the committee created for the use of all vector control districts and programs across the state. Additionally, I was able to attend the executive committee meeting where they discussed their priorities and challenges from the year before and what iter should be moved into the next year. The biggest take away from this year's planning meeting and mosquito season was the need to develop a funding mechanism and process for non-emergency situations that s require an immediate response from vector control districts. Additionally, one of the tefor the public information committee is to create an outreach plan and resources to increase engagement with the medical community and county medical officers in regar to dengue awareness.	nt ms till

AT CONFERENCE/EVENT

Staff Name and Title: Jason Farned, District Manager
Name of Conference/Event: MVCAC Planning Meeting
Date : December 2-4, 2024
Location: San Diego, CA
Significant points learned of benefit to the District and its ratepayers:
As a member of the Legislative and Regulatory Committee, I attended the MVCAC Planning Session held from December 2-4, 2024. This hybrid-format event provided valuable opportunities for collaborative discussions on key priorities and future goals.
 Key Participation Highlights Legislative and Regulatory Committee Meeting This session focused on legislative priorities and regulatory updates for the upcoming year. It provided a platform to strategize ways to address challenges within the mosquito and vector control sector, including advocacy and legislative outreach.
 I observed and engaged in discussions from other committees, including: Public Relations: Strategies for enhancing public awareness and supporting local Districts with a unified message and universal education and outreach material. IVM Committee: Updates on Integrated Vector Management approaches including strategies to address invasive <i>Aedes</i> and <i>Aedes</i>-borne disease. Vector and Vector-Borne Diseases: Key research and surveillance priorities.
The discussions during the Planning Session reinforced MVCAC's commitment to proactive, science-driven approaches in protecting public health. As a committee member, I will contribute to advancing these priorities by supporting legislative strategies and maintaining active involvement in future MVCAC initiatives.

Location:	Holiday Inn San Diego - Bayside	

Significant points learned of benefit to the District and its ratepayers:

This event was a meeting of the executive board and committees for the MVCAC to discuss the direction of the organization for 2025. Being the chair of the Training and Certifications committee for the organization, I was asked to report out on the committees work for 2024 and discuss future plans for 2025. This was an excellent opportunity to aim the directions of the organizations towards challenges the District, the southern region of California and the state as a whole to emerging threats. Below, two such directions will be outlined.

In 2023, historic snowmelts created an emerging habitat that over time became a significant hazard for mosquito breeding. This incident, also referred to as the Tulare Lake incident, spurred an emergency declaration by the state to enact needed control in the area. In 2024, the parties involved drafted a preparation document for the rest of California through the organization to better prepare mosquito districts in emergency scenarios and to help identify aid or support in non-emergency declaration scenarios. This last factor is most pertinent to the mission of the District as local dengue transmission has been at the forefront of planning conversations and lacking the push of an emergency declaration, the District would be required to manage these unprecedented scenarios. This drafted document will be of great benefit and use to the District once finalized and ready for distribution.

Additionally, the discussion of abundance thresholds for a variety of vector concerning species in various scenarios has been a topic of action. While the District has set thresholds for such scenarios and is providing that information for further discussion of applicability, the organization is looking to refine these metrics or discuss what values and how to achieve those collections would be most viable. In the southern region of California, these have been discussed and we are looking forward to additional definitive metrics for how many mosquitoes are acceptable in specific scenarios before additional actions are required to be enacted.

The MVCAC Planning meetings are excellent opportunities to meet with department heads and district managers across California and intimately plan for direct actions the following calendar year.

Meeting of: San Gabriel Valley Mosquito and Vector Control District Board of Trustees

Subject: Nominations Committee Report

Exhibit(s): Exhibit 5A

Background

The Nominations Committee convened on December 23, 2024, to confirm a recommendation for the nomination of Secretary/Treasurer for the 2025 calendar year. This committee is tasked annually with ensuring leadership continuity and identifying Trustees who are willing and able to serve in executive roles.

The meeting discussion included:

- Soliciting interest from Trustees in serving as officers.
- Reviewing the qualifications, experience, and expressed interest of recommended candidates.
- Discussing leadership needs and strategic priorities for the District in 2025.
- Formulating recommendations to present to the full Board.

The committee evaluated candidates based on:

- Prior experience serving as a Board officer or committee member.
- Demonstrated commitment to the District's mission and strategic goals.
- Availability and willingness to dedicate time to additional responsibilities.

Trustee Calaycay has submitted a statement of interest which is attached as **EXHIBIT 5A**.

Committee's Recommendation

During the December 23 meeting, the Committee reviewed all individuals who expressed interest and those recommended by others. After careful deliberation, the Committee formally nominated Corey Calaycay for the role of Secretary/Treasurer.

Board Action Options

- Board Action Required: If the Board concurs, following the public discussion by members for this item, the Board may confirm the appointment of Corey Calaycay as Secretary/Treasurer for the 2025 calendar year.
- Alternative Board Action: If after discussion by members for this item, the Board may choose to nominate and confirm an alternat candidate for the role of secretary/treasurer.
